

I HAVE CERTIFICATION IN ONE OF THE SCIENCES (BIOLOGY, CHEMISTRY, EARTH SCIENCE, PHYSICS) AND WANT TO ADD ANOTHER SCIENCE TITLE

If you hold Initial NYS Certification in one of the Sciences (Biology 7-12, Chemistry 7-12, Earth Science 7-12, Physics 7-12), you may wish to add a second science title. To do so, you will need to apply for the additional title as an additional certificate through a BOCES Regional Certification Office. BOCES will complete an official evaluation and send you a letter telling you which requirements are missing. Upon completion of the missing requirements, the evaluation may be updated at no additional cost.

The current requirements to add a second science certificate include: valid base certificate in one science area and 18 acceptable credits in the second science area, the CST in the additional science area, and the Child Abuse Identification Second Update workshop. **Please note that certification requirements are subject to change at any time and without notice.**

You will need to verify the acceptability of specific coursework toward the 18-credit requirement with BOCES after you apply for the certification and before you register for a course.
